SAFETY DATA SHEET
BROMICIDE® TABLETS

1. Identification

Product identifier

Product name: BROMICIDE® TABLETS

Chemical name: 1-Bromo-3-chloro-5,5-dimethylhydantoin

Product number: 100404, 100408, 100411, 100870, 100423, 101335, 101507, 100974, 100409, 100410

CAS number: 32718-18-6

Recommended use of the chemical and restrictions on use

Application: Biocides for water treatment.
Uses advised against: Industrial Use Only

Details of the supplier of the safety data sheet

Supplier: BWA Water Additives US LLC
1979 Lakeside Parkway
Suite 925, Tucker, GA30084.
T: (800) 600-4523.
(Technical/commercial enquiries)
E: MSDS@wateradditives.com

Manufacturer: BWA Water Additives US LLC
1979 Lakeside Parkway
Suite 925, Tucker, GA30084.
T: (800) 600-4523.
(Technical/commercial enquiries)
E: msds@wateradditives.com

Emergency telephone number

Emergency telephone: CHEMTREC Phone: 1-800-424-9300

2. Hazard(s) identification

Classification of the substance or mixture

Physical hazards: Ox. Sol. 3 - H272

Health hazards: Acute Tox. 4 - H302 Skin Corr. 1B - H314 Eye Dam. 1 - H318 Skin Sens. 1 - H317

Environmental hazards: Aquatic Acute 1 - H400

Label elements

1/11
BROMICIDE® TABLETS

Pictogram

Signal word
Danger

Hazard statements
H272 May intensify fire; oxidizer.
H302 Harmful if swallowed.
H314 Causes severe skin burns and eye damage.
H317 May cause an allergic skin reaction.
H400 Very toxic to aquatic life.

Precautionary statements
P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking.
P220 Keep away from combustible materials.
P221 Take any precaution to avoid mixing with combustibles.
P260 Do not breathe vapor/spray.
P261 Avoid breathing vapor/spray.
P264 Wash contaminated skin thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P272 Contaminated work clothing must not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P301+P310 If swallowed: Immediately call a poison center/doctor.
P301+P330+P331 If swallowed: Rinse mouth. Do NOT induce vomiting.
P302+P352 If on skin: Wash with plenty of water.
P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P311 Specific treatment (see medical advice on this label).
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before reuse.
P363 Wash contaminated clothing before reuse.
P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish.
P391 Collect spillage.
P405 Store locked up.
P501 Dispose of contents/container in accordance with national regulations.

Contains
1-Bromo-3-chloro-5,5-dimethylhydantoin

4. First-aid measures

Description of first aid measures

Inhalation
Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention.

Ingestion
Do not induce vomiting. Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention immediately.

Skin Contact
Remove contaminated clothing. Rinse immediately with plenty of water. Get medical attention immediately.

Eye contact
Remove affected person from source of contamination. Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention immediately.

Most important symptoms and effects, both acute and delayed

Inhalation
Inhalation of dust may cause irritation of the respiratory tract.

Ingestion
May cause stomach pain or vomiting. May cause chemical burns in mouth and throat. Due to the physical nature of this material it is unlikely that swallowing will occur.

Skin Contact
Chemical burns. Burning pain and severe corrosive skin damage.

Eye contact
Severe irritation, burning and tearing.

Indication of immediate medical attention and special treatment needed

Notes for the doctor
If lavage is performed suggest endotracheal and/or esophageal control. Danger from lung aspiration must be weighed against toxicity when considering emptying the stomach. The decision of whether to induce vomiting or not should be made by a physician. Chemical eye burns may require extended irrigation. Obtain prompt consultation preferably from an ophthalmologist. If burn is present, treat as any thermal burn after decontamination. No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.
BROMICIDE® TABLETS

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media
Extinguish with the following media: Water spray, fog or mist. Alcohol-resistant foam. DO NOT use CO2 or dry chemicals.

Unsuitable extinguishing media
Carbon dioxide (CO2). Dry chemicals.

Special hazards arising from the substance or mixture

Specific hazards
Toxic gases/vapors/fumes of: Bromine. Chlorine. Oxides of the following substances: Carbon. Nitrogen. Thermal decomposition or combustion products may include the following substances: Toxic gases or vapors.

Advice for firefighters

Protective actions during firefighting
Move containers from fire area if it can be done without risk. Control run-off water by containing and keeping it out of sewers and watercourses.

Special protective equipment for firefighters
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions
Follow precautions for safe handling described in this safety data sheet. For personal protection, see Section 8.

Environmental precautions

Avoid release to the environment. To prevent release, place container with damaged side up.

Methods and material for containment and cleaning up

Methods for cleaning up
Provide adequate ventilation. Contain spillage with sand, earth or other suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Containers with collected spillage must be properly labeled with correct contents and hazard symbol. Wash thoroughly after dealing with a spillage. Avoid generation and spreading of dust. Avoid contact with water.

Reference to other sections
For personal protection, see Section 8. For waste disposal, see section 13.

7. Handling and storage

Precautions for safe handling

Usage precautions
Provide adequate ventilation. Avoid inhalation of vapors. Use approved respirator if air contamination is above an acceptable level. Do not use in confined spaces without adequate ventilation and/or respirator. Avoid spilling. Avoid contact with skin and eyes. Avoid contact with the following materials: Acids. Moisture. Avoid handling which leads to dust formation.

Conditions for safe storage, including any incompatibilities

Storage precautions
Store in a tightly-closed, original container in a dry, cool, and well-ventilated place. Store at temperatures not exceeding 50°C /122°F. Protect from freezing and direct sunlight. If frozen: once thawed, agitation container vigorously to ensure the product is homogeneous. Store away from the following materials; alkalis, acids, cyanides, reducing agents, oxidizing materials and aluminum. Do not use containers made of Carbon steel. Keep separate from food, feeds, fertilizers, and other sensitive materials.

Storage class
Oxidizer storage. NFPA STORAGE CLASSIFICATION:NFPA Oxidiser Class 2.
BROMICIDE® TABLETS

Specific end uses(s)
Specific end use(s) The identified uses for this product are detailed in Section 1.

8. Exposure Controls/personal protection

Ingredient comments No exposure limits known for ingredient(s).

Exposure controls

Protective equipment

Appropriate engineering controls All handling should only take place in well-ventilated areas.

Eye/face protection The following protection should be worn: Chemical splash goggles or face shield.

Hand protection Selection of a suitable glove depends on work conditions and whether the product is present on its own or in combination with other substances. Wear protective gloves made of the following material: Neoprene. Nitrile rubber. Polyethylene. Polyvinyl chloride (PVC). Gloves should be replaced immediately if signs of degradation are observed.

Other skin and body protection Wear appropriate clothing to prevent any possibility of skin contact. Wear a suitable dust mask. Wear apron or protective clothing in case of contact.

Hygiene measures Use engineering controls to reduce air contamination to permissible exposure level. Provide eyewash station. No specific hygiene procedures recommended but good personal hygiene practices should always be observed when working with chemical products. Contaminated clothing should be placed in a closed container for disposal or decontamination.

Respiratory protection Wear a suitable dust mask.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Appearance Tablet.

Color White/off-white.

Odor Slight. Halogen

Odor threshold Not available. Not available.

pH Not available. pH (diluted solution): 3.5 @ 0.15 %

Melting point 156 - 162°C

Initial boiling point and range Not available.

Flash point Not available.

Freezing Point: Not available.

Evaporation rate Not available.

Evaporation factor Not available.

Upper/lower flammability or explosive limits Not applicable.

Vapor pressure 0.0038 Pa @ °C

**10. Stability and reactivity**

- **Reactivity**: This material has oxidising properties.
- **Stability**: Stable at normal ambient temperatures. Avoid the following conditions: Moisture.
- **Possibility of hazardous reactions**: Will not polymerize.
- **Conditions to avoid**: Generates toxic gas in contact with acid. Avoid heat, flames and other sources of ignition. Avoid excessive heat for prolonged periods of time.
- **Materials to avoid**: Strong acids. Strong alkalis. Strong reducing agents.

**11. Toxicological information**

**Information on toxicological effects**

- **Other health effects**: There is no evidence that the product can cause cancer.

**Supplemental Toxicological Information**

- **Acute toxicity - oral**: Acute toxicity oral (LD₅₀ mg/kg) 578.0
  
  **Species**: Rat

- **ATE oral (mg/kg)**: 520.83

- **Acute toxicity - dermal**: Acute toxicity dermal (LD₅₀ mg/kg) 2,000.0
  
  **Species**: Rabbit

- **Germ cell mutagenicity**: Ames test: Negative.
**BROMICIDE® TABLETS**

**Inhalation**  
May cause respiratory system irritation.

**Ingestion**  
Harmful if swallowed.

**Skin Contact**  
Causes burns. May cause sensitisation by skin contact.

**Eye contact**  
Causes burns.

**Acute and chronic health hazards**  
This product is corrosive. Contact with acids liberates toxic gas.

**Route of entry**  
Skin and/or eye contact Ingestion. Inhalation

### 12. Ecological Information

<table>
<thead>
<tr>
<th>Ecotoxicity</th>
<th>The product contains a substance which is very toxic to aquatic organisms.</th>
</tr>
</thead>
</table>
| **Acute toxicity - fish** | LC50, 96 hours: 0.87 mg/l, Onchorhynchus mykiss (Rainbow trout)  
LC₅₀, 96 hours: 0.87 mg/l, Fish |
| **Acute toxicity - aquatic invertebrates** | EC₅₀, 48 hours: 0.46 mg/l, Daphnia magna  
EC₅₀, 48 hours: 0.46 mg/l, Daphnia magna |
| **Persistence and degradability** | Halogens will dissociate in water leaving DMH. DMH is readily biodegradable in a CO2 Evolution study and passes the 10-day window criteria. DMH has also been shown to be rapidly degraded in a water/sediment system. |
| **Chemical oxygen demand** | 1.005 g O₂/g substance |
| **Bioaccumulative potential** | Low bioaccumulation potential |
| **Bio-Accumulative Potential** | |

| **Mobility in soil** | Information not available. |
| **Mobility** | |
| **Other adverse effects** | Acute Toxicity. Lc50 96 Hours, 640 American Oyster Mg/L |

### 13. Disposal considerations

**Waste treatment methods**

**General information**  
When handling waste, the safety precautions applying to handling of the product should be considered.

**Disposal methods**  
Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Absorb in vermiculite, dry sand or earth and place into containers. Dispose of waste via a licensed waste disposal contractor. Liquid material should be incinerated. Material absorbed onto sand or earth should be disposed of as solid waste in accordance with local regulations. Empty packaging may contain product residues and due consideration should be given prior to disposal.

**Waste class**  
07 01 99

15. Regulatory information

Regulatory Status This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label: DANGER Avoid contact with eyes, skin and clothing. EPA Reg. No. 83451-4

US Federal Regulations

SARA Section 302 Extremely Hazardous Substances Tier II Threshold Planning Quantities None of the ingredients are listed.

CERCLA/Superfund, Hazardous Substances/Reportable Quantities (EPA) None of the ingredients are listed.

SARA 313 Emission Reporting None of the ingredients are listed.

US State Regulations

California Proposition 65 Carcinogens and Reproductive Toxins None of the ingredients are listed.

Massachusetts "Right To Know" List None of the ingredients are listed.

Rhode Island "Right To Know" List None of the ingredients are listed.

Minnesota "Right To Know" List None of the ingredients are listed.

New Jersey "Right To Know" List None of the ingredients are listed.

Pennsylvania "Right To Know" List None of the ingredients are listed.

For safety reasons it is IMPERATIVE that customers:-

1. Ensure that all those within their control who use the products are supplied with all relevant information contained within the Safety Data Sheet and Technical Bulletin concerning the applications for which the product is designed and any instructions and warnings contained therein.

2. Consult BWA Water Additives before using or supplying the product for any other applications. The information contained herein is based on the present state of our knowledge and is intended to describe our products from the point of view of safety requirements. It should not therefore be construed as guaranteeing specific properties.
